Unico XS Casement profile

Unico profile with a construction depth of 70 mm glazing with glass units up to 60 mm galvanized steel profiles a thermal break made of stainless steel provides additional structure stabilization we lacquer in the full RAL K7 colour palette and, on request, in other colours (use powder code)

The UNICO window system with a thermal break will perfectly suit buildings with greater energy expenditure requirements. With its use, we can craft not only windows, but also doors, facades and all types of spatial structures. * The value of U_w 1.05 is given for a reference window with dimensions of 1200 x 1480 mm.

U_w for $U_g = 0.5$ (the Ultimate frame)*
